POWER WEEDER

KEW POWER WEEDER

Power weeder are machines used to remove weeds, mix and grind the soil and loosen the soil after the crop grows. Power weeders are manufactured using high quality raw materials with the help of the latest technology. These machines are mainly used for weeding cotton, tomato , tapioca, paddy, sugarcane, pulses and other crops.

ADVANTAGES

Power weeder provide several advantages to farmers. They are available in mini designs at economical cost.

- Reducing labour cost by minimizing the manual efforts.
- Reducing maintenance cost.
- Reducing the use of harmful fertilizers for weed control.
- Reducing times by replacing traditional methods of weed control.
- Removing Unnecessary grass and Providing rotary farming for crops like maize, soya been and bengal gram etc.,

Power Weeder With Trolley Attachment

SPECIFICATIONS

MODEL	KEW 100 BW-1
Engine	71 CC / 2.3 HP
Fuel	Petrol (1Ltr Petrol mix with 50 ml oil)
Engine Type	2 Stroke
Transmission Type	Gear
Start	Recoil Start
Weight	19 Kg
Weeding Width	420 mm (16.5 inches)
Weeding Depth	75mm (3 inches)
Blade	16 Nos (2 Rows x 4 Blades)

MODEL	KEW 620 GD-1
Engine	WM 178 F / 7 HP
Fuel	Diesel
Gear	R,0,1,2
Transmission Type	Gear & Chain
Start	Recoil Start
Weight	145 Kg
Weeding Width	620mm (24.4 inches)
Weeding Depth	≥ 100 mm (4 inches)
Blade	18 Nos (3 Rows x 3 Blades)

MODEL	KEW 500 BD-1
Engine	200 CC / 6 HP
Fuel	Petrol
Gear	R,0,1,2
Transmission Type	Belt & Chain
Start	Recoil Start
Weight	69 Kg
Weeding Width	304 mm - 915 mm (12 - 36 inches)
Weeding Depth	75mm - 175 mm (3 - 7 inches)
Blade	24 Nos (3 Rows x 4 Blades)

MODEL	KEW 1000 GD-1
Engine	210 CC / 7 HP
Fuel	Petrol
Gear	1, 0, R, 2
Engine Type	2 Stroke
Transmission Type	Gear
Start	Recoil Start
Weight	98 Kg
Weeding Width	1000 mm (39.5 inches)
Weeding Depth	100 mm (4 inches)
Blade	32 Nos (4 Rows x 4 Blades)
